Mini Excavators

An extensive line of Cat Mini Hydraulic Excavators offers the performance to dig in and be productive on every job.

- High digging forces and fast cycle times to help you get more done, faster.
- Quiet, spacious cab and smooth ergonomic controls, with integrated auxiliary and swing boom functions, keep you comfortable and reduce operator fatigue.
- Pin-Grabber Coupler and quick disconnects enable the operator to change mini excavator attachments quickly.
- Auto idle, auto two-speed and a load-sensing variable pump optimize fuel efficiency.
- A compact or standard radius tail swing, with a swing or fixed boom option, provides a good match to any jobsite.

MODEL	HP	OP WEIGHT (LB)	DIG DEPTH (FT)	REACH (FT)	MAX LIFT CAPACITY (LB)

Compact Wheel Loaders

Cat Compact Wheel Loaders deliver high performance, versatility and precision in any application.

- Strong breakout forces, fast cycle times and aggressive performance packaged in one compact machine.
- Superior reach, excellent visibility and low effort joystick control let you place material easily and efficiently.
- Spacious cabs with joystick controls keep you comfortable throughout the work day.
- Ride Control option provides an even more comfortable ride and greater material retention over rough terrain.
- Skid Steer Loader style coupler on the 904H, 906H, 907H and 908H allows the use of Cat Skid Steer Loader attachments for increased versatility.

MODEL	HP	OP WEIGHT (LB)	MAX DUMP HEIGHT (IN)	WIDTH (IN)

910K	93	15714	10' 9"	7' 4"
914K	96	17910	10' 10"	7' 4"

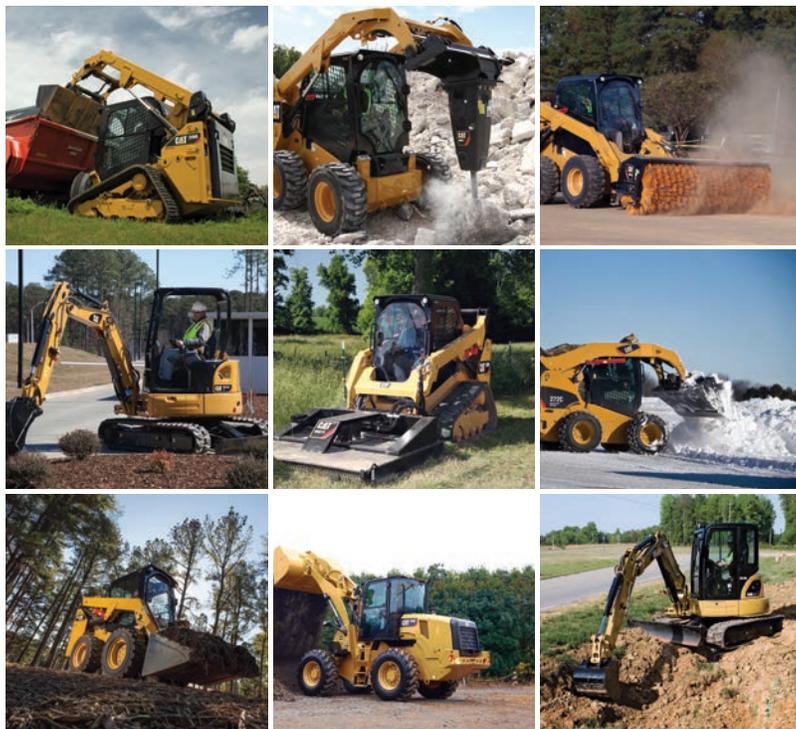

RELIABLE. TOUGH. EFFORTLESS.

Cat® Compact Construction machines are indispensable partners on any work site. Class leading design and operator interface make them your first choice for any work site project, from an all-around workhorse on a major construction site to a backyard landscaping make-over.

There's a tool for that

Whatever you need to get done, there's a Cat or aftermarket attachment to help you get the job done faster and more efficiently. Cat attachments are matched to Cat machines for optimum power and performance. A universal coupler allows many of the attachments to be used with competitive machines.
